## HYUNDAI HY8000Ei INVERTER GENERATOR

The Hyundai HY8000Ei is a compact and powerful portable electric start inverter petrol generator. Producing a maximum electrical power output of 7.5kW with a continuous output of 7kW and a surge output of 15kW, the HY8000Ei is ideal for larger power requirements that need a pure sinewave output.

### Specification

Gross Weight (kg)	82.00
Engine Type	4-Stroke OHV Petrol Air Cooled Engine
Power Output (hp)	14hp
Number of Cylinders	1.00
Displacement (cc)	420.00
Cooling Method	Air-cooled
Oil Capacity (L)	1.10
Speed (rpm)	Variable
Speed Regulation Type	Electronic Control
Alternator Type	PMG
Voltage Regulation Method	Digital Inverter
Power Factor (cos )	1.00
Rated kW	7.00
