## Technical Data

Maximum power	3.8 kW
Rated power	3.5 kW
Voltage	230 V
Power Factor	1 Cosφ
Sockets	2x230V / 16 A, 2xUSB 5V / 2.4A
ATS Connector	no
Run time 50% load	9 h
Displacement	223 cm <sup>3</sup>
Engine power	7.5 HP
Engine model	Series 225
Engine type	4-stroke
Engine manufacturer	DAEWOO
Fuel type	Petrol
Fuel tank volume	11 l
Oil volume	0.45 l
Starter battery	yes
Starting system	manual-electro
Dimensions (L/W/H)	580x430x480 mm
Weight	43 kg

- Professional DAEWOO engine
- Electric start
- Multifunctional display
- Intelligent overload protection
- Oil level sensor
- Low noise level
- Inverter technology
- Soundproof enclosure
- Parallel connection of two generators
- Central control lever

### Operation mode indicators

Overload indicator. Does not light up when the generator operates normally.  
Low oil level indicator. Does not light up when the generator operates normally.  
Output voltage indicator. Lights green when the generator operates normally.

### Ergonomic control panel

All controls are located on the front panel, making the generator easy and convenient to operate.

### Parallel connection of two generators

The Twin Tech connector allows parallel connection of two generators.

Generator power when connected in parallel:

### GDA KIT 65i

### Twin Tech set (optional)

Allows parallel connection of 2 generators, increasing the maximum output power.

Generator power when connected in parallel:
