

SDMO DIESEL 12 LC A C5

Diesel power generator, soundproofed, electric start, IP 23, KOHLER engine KDW1003-H, voltage and frequency stable according to DIN 6280, automatic oil shortage switch-off, AVR function, large tank 50 litres, autonomy 14 hours, maximum power 12 KW for a variety of uses, 100% stable running, maintenance-free battery, 230V 10/16A sockets, all with individual overload protection, emergency stop switch with operating hours counter + display + APM303, for the following parameters overspeed, oil pressure, coolant temperature, voltage and frequency, Stage V emissions standard, 3 year guarantee, weight: 358 kg

SDMO DIESEL 12 LC TA Silence AVR C5 power generator

The SDMO DIESEL 12 LC A Silence C5 is a powerful and reliable power generator specifically designed to meet your power needs in various situations. With its impressive performance, quiet operation and a variety of functions, this generator is the perfect solution for mobile use.

The SDMO DIESEL 12 LC A Silence C5 is powered by a robust and reliable diesel engine that delivers continuous power of 12 kVA (9.6 kW). Whether you work on construction sites, organize outdoor events or need reliable power for your home or caravan, this generator will reliably meet your needs.

With the "Silence C5" system, the SDMO DIESEL 12 LC A Silence C5 offers extremely quiet operation. This noise reduction technology ensures that the generator can be used in noise-sensitive environments such as residential areas or campsites without disturbing the peace.

The SDMO DIESEL 12 LC A Silence C5 is characterized by its compact and robust design. With integrated transport wheels and an extendable handle, it is easy to transport and bring to the desired location. So you have a reliable power supply at hand anytime and anywhere.

The control panel of the SDMO DIESEL 12 LC A Silence C5 is intuitively designed and allows easy control and monitoring of all important functions. It offers various ports and sockets to easily connect your electronic devices and tools.

The SDMO DIESEL 12 LC A Silence C5 also has various safety functions. An automatic voltage regulator (AVR) ensures a stable power supply and protects your connected devices from voltage fluctuations. Overload protection and low oil level protection provide additional safety and protect the generator from damage.

In summary, the SDMO DIESEL 12 LC A Silence C5 power generator offers reliable performance, quiet operation, easy handling and maximum safety. Invest in the SDMO DIESEL 12 LC A Silence C5 and benefit from a high-quality power source that easily covers your power needs in various situations.

- **Length:** 1410 mm (141 cm)
- **Width:** 800 mm (80 cm)
- **Height:** 1050 mm (105 cm)
- **Weight:** 358 kg - 364 kg (net)
